

ROUGH SKETCH

Draw a rough sketch here, or otherwise attach illustrations, photographs, or other appropriate visual art. This sketch can be very rough because it is only for documenting the conception date or for communicating the essence of your invention to a professional who is working for you on this project. It is important to have this sketch signed and witnessed just as you did in your invention description.

Invention title: _____

Drawing here:

Signed by Inventor: _____ Date: _____

Witness Signature:

I have read and understand the above. by _____

Witness Name: _____ Date: _____

Address: _____

Phone: _____ Email: _____

(Optional) Second Witness

I have read and understand the above. by _____

Witness Name: _____ Date: _____
